

## Data Sheet

## AIRHOLD 10 CBS

Double-backed tape for holding honeycomb core during machining

### DESCRIPTION

Airhold 10 CBS is a double-sided fabric reinforced tape with a rubber based adhesive on both sides. Airhold 10 CBS is designed specifically for holding honeycomb cores during machining while allowing the core to be removed without residue. The thick adhesive coating ensures that the core is held firmly in position. Airhold 10 CBS is suitable for use with metallic and non-metallic core. Airhold 10 CBS can also be used to hold down plastic spiral wrap used as a vacuum manifold in the resin infusion process.

### TECHNICAL DATA

Maximum use temperature	140 °F (60 °C)
Carrier type	Cloth
Adhesive type	Rubber
Color	White
Total thickness	0.011 inch (279 µm)
Film thickness	0.004 inch (100 µm)
Adhesive thickness	0.0035 inch (90 µm)
Adhesion	High
Shelf life	18 months from date of shipment
Storage conditions	72 °F (22 °C)

### SIZES

Width	Length	Packaging
1 inch (2.54 cm)	36 yards (33 m)	36 rolls per case
2 inches (5.08 cm)	36 yards (33 m)	24 rolls per case

### NOTES

- > Broken cases available on special order.
- > Other sizes available on special order.
